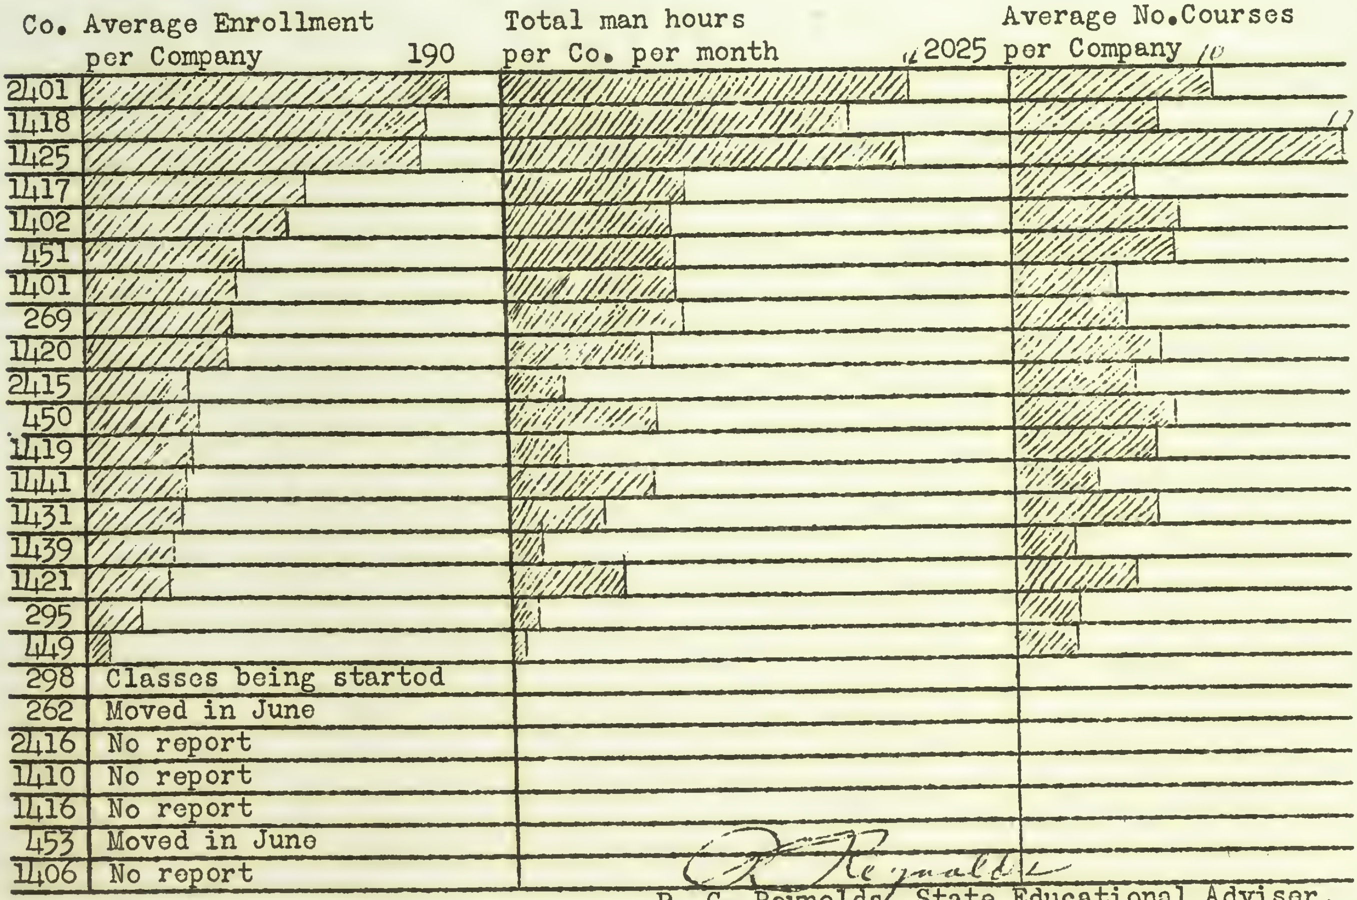
Circular letter #6.

SUBJECT: Comparative study of the educational programs in the various Florida CCC Camps for the month of June.

TO: All Commanding Officers and Camp Educational Advisers of Florida CCC Camps.

Below you will find a chart showing your standing in regard to the educational program in the camps of the State, with reference to the educational work only. At a later date a chart will be prepared on the recreational activities. It is of course understood that this is not an absolute method of determining the success of the various programs, in many cases the best work you do will not show on a report, reference is made to vocational guidance. Naturally, companies failing to turn in reports could not be given a rating. This is a total of June reports. The low rating of some camps is due to the transfer of the adviser. Next month let's have a more complete report and better results. We will have to do this if we expect to keep up with the other states.



P. G. Reynolds, State Educational Adviser,
Civilian Conservation Corps.
